

INDIVIDUAL ENNEAGRAM PERSONALITY PROFILING

Understand yourself & others better

The Enneagram Personality Profiling increases self-confidence, shifts emotional issues and uncovers pathways for personal, spiritual and leadership development.

What is the Enneagram?

Personality profiling tools commonly focus on behaviour, but the Enneagram helps you understand why you behave the way you do, exploring underlying motivations, patterns and values. Each of the nine Enneagram styles represents a world view and archetype that discerns how you relate to the world, others and yourself.

A powerful coaching tool

With guidance from Ecclesia Leadership, the Enneagram equips you to identify fears and self-limiting beliefs, and what you can do about them. Experience change and growth as you develop strengths and balance weaknesses.

CONTACT US

Sessions may be delivered online or in person. Contact Phil at Ecclesia Leadership to discuss options to suit your needs.

INCLUSIONS

- Enneagram introduction
- Enneagram Standard Profile Report
- Individual Profile Debriefing and Exploration

If you already know your Enneagram Personality Profile type, progress further with tailored development tools.
